

## The Clifton StrengthsFinder

As you may know, the Clifton StrengthsFinder measures the presence of talent in 34 categories called "themes." These themes were determined by Gallup as those that most consistently predict outstanding performance. The greater the presence of a theme of talent within a person, the more likely that person is to spontaneously exhibit those talents in day-to-day behaviors. Focusing on naturally powerful talents helps people use them as the foundation of strengths and enjoy personal, academic, and career success through consistent, near-perfect performance.

Below are my top five themes of talent, ranked in the order revealed by my responses to the Clifton StrengthsFinder.

### **Intellection**

People who are especially talented in the Intellection theme are characterized by their intellectual activity. They are introspective and appreciate intellectual discussions.

### **Achiever**

People who are especially talented in the Achiever theme have a great deal of stamina and work hard. They take great satisfaction from being busy and productive.

### **Command**

People who are especially talented in the Command theme have presence. They can take control of a situation and make decisions.

### **Futuristic**

People who are especially talented in the Futuristic theme are inspired by the future and what could be. They inspire others with their visions of the future.
