## SIGN UP TODAY FOR A FREE WORKSHOP

### Attend A FREE Mobile Enterprise Management Workshop

Mobilize your business processes at the warehouse, in production, and in the field. DSI mobile apps provide employees with accurate, real-time access to data — securely. Applications work both on- and off-premise, connected or disconnected.

Extend your Oracle investment. Learn how to easily develop and deploy mobile applications optimized for Oracle that support your specific business processes.

### Bring a Team of Two

The workshop is most effective when companies send team members from both operations and IT so feel free to bring a team.

- ▶ Operations: Improve business processes with mobile technology.
- ▶ IT: Leverage existing systems with a flexible, easily implemented solution.

### Mobile Apps Made Easy

- ▶ Deploy ready-to-use mobile apps or easily build your own.
- ▶ Simply drag-and-drop to flowchart your business processes.
- ▶ Multi-View: Write once, deploy to any mobile device — instantly.
- ▶ Validated, certified, and reliable integrations with leading enterprise software systems:

Oracle E-Business Suite  
Oracle JD Edwards  
EnterpriseOne  
Oracle JD Edwards World
