

I am proud to say that I will be a Sun Devil, as I will be attending Arizona State University as a freshman during the fall of 2015. I will be on Arizona State's New American University Scholarship while at ASU. I will attend the ASU Polytechnic Campus and plan on majoring with a bachelor in mechanical engineer. ASU has an amazing engineering program with many strong connections to companies within the valley. I believe I will be very successful here at ASU! Forks Up!
