To whom it may concern:

Kyle Watson worked for our organization for about 6 months as an intern. We were fortunate enough to have him as part of a High School program. Kyle came in and was a wonderful addition for the short time we had him with us.

He was attentive and a very quick learner. Any project that I gave him to do, he did efficiently and in a timely manner. He was respectful and engaged very easily with his co-workers. There was one project that I gave him to do that stands out to me!

Our company had three locations at the time and we were closing one and opening another. The office we were closing was a floor that we managed and we had to hand over 2 plus years of digital records to them. I told Kyle what I wanted and he went right to work and had most of the project done in a few days. I thought this project would take weeks, so imagine my delight when it was done correctly and in such a short time!

Anyone, who hires this young man will not be disappointed. He very smart, organized and efficient.
