Re: Recommendation Letter for Bradly Angelo Swart

To Whom It May Concern:

I have known and worked with Bradly Angelo Swart since November 2010 when he joined SMS Streamer as Director of Systems Development.

Until April 2012, Brad was supervising and mentoring the Systems Development teams in South Africa and Canada and was responsible for managing the full life cycle systems development process for numerous mobile technology projects, including an e-commerce site for prepaid electricity in South Africa and an SMS based soccer score messaging service available world-wide.

His performance at our firm has been outstanding and has significantly contributed to the success of SMS Streamer's business operations. I appreciate his expertise and advice on technical solutions that have helped us to develop cutting-edge mobile technology solutions and maintain an efficient and secure technical infrastructure.

Throughout my relationship with Brad, I have found him to be exceptionally talented, courteous, hard working, and dependable. Brad is organized, efficient, and extremely competent.

Brad consistently exceeds standards by applying his own high level of quality, and offering insightful perspectives leading to useful improvements and ideas. Always going above and beyond, he has shown time and again his team player attitude, but more importantly, his ability to think on his feet in emergency situations and complete the task at hand.

Although highly technically astute, Brad's greatest strength is the manner in which he interacts with people. He is sincere, helpful, outgoing, and has continuously proven himself as wonderful company.

In summary, I highly recommend Brad and wish him all the best for his future endeavors. I am confident that as you get to know Brad, you will come to regard him as highly as I do.

Please feel free to contact me directly if you have any questions.
