Stillwater Domestic Violence Services

Stillwater Domestic Violence Services was developed by a group of residents in responce to a growing awareness of domestic violence in our community.

The agency has evolved from a crisis line from a volunteer's home to an agency with full shelter and counseling services.

SDVS is dedicated to improving the community by helping families gain control of their situation and to help stop the cycle.

SDVS strives to provide confidential services for families and individuals. The programs are designed to end all forms of violence.
