

June 2008

SNOW parknz.

What's New:

Edition 2 of our swanky new newsletter format. Season starts in less than 2 weeks!

Get set for another winter at NZ's freestyle mecca!

MORE TERRAIN, MORE HOURS, MORE SNOW!

ONE WEEK and counting until the '08 season kicks off at Snow Park NZ

If you were there then you know that the Welcome to Winter Parties in both Wanaka and Queenstown ROCKED! Thanks for your support and hope your recovery time was minimal...

Snow Park NZ's first event of the season is just over 2 weeks away! Rock on up to enter or just watch the talent in the brand new **'Mountain Dew Night Sessions'** first ever amateur rail jam. It all starts around 5pm on June 19th.

Snowmaking is now in full swing with the guns cranking out plenty of white gold all over the hill. Cold temps and clear skies lately has meant lots of late nights and

early mornings hard at work for the crew of snowmakers.

A brand new permanent stair feature is close to completion. The stair set will feature in the Mountain Dew Night Sessions and sure to be a popular mainstay at the park. It's located just down the way from the permanent wall ride installed in early May.

Opening day is scheduled for Friday, June 13th. We'll be giving out stubbies/cans of V energy drink and hot pies to the first people on the lift - then we will be heading to Red Rock for Wiggum's Hip Hop Halloween Party later that night...
