Murrysville, PA, Thursday, May 08, 2008

To whom it may concern:

Jessica Durney has been my Executive Assistant from June 2003 until December 2005, during my assignment as CFO and SVP of Philips' Cardiac and Monitoring Systems.

Jessica did a very good job. Her tasks were to do my calendar, travel, meeting preparation, email and filing. She knows the software tools (Microsoft office) and helped to set up and maintain document libraries (groupware/paperless office).

She is a kind, hardworking and no nonsense team player with a keen sense of humor that knows how to deal with confidential information. She developed a good network in the company and was often times a go-to person for advice to colleagues on many business related issues and topics.

It has been a pleasure to work with Jessica and I would recommend her without any hesitation for similar jobs and assignments.

Sincerely,

Han Jansen
CFO and SVP
