

Re: Ann Czeponis

We highly recommend Ms Ann Czeponis for your M. S. in Teaching and Learning program. We have been very impressed with Ms Czeponis.

She is a wonderful, patient, and an energetic teacher. Her Kindermusik program is a great asset to the children in our community. We are a pediatrician and a child and adolescent psychiatrist. We have been very impressed with Ms. Czeponis' interpersonal skills and attention to detail in her Kindermusik classes. We have enrolled both of our children in her classes. This was both of our children's first classroom setting. We were made to feel so comfortable as parents. We trusted Ms Czeponis who ran an organized, educational, and very interactive classroom. Our children felt at ease and comfortable with her. They looked forward to seeing her each week and playing with the other children in the class. We saw the Ms Czeponis has contributed greatly to the growth and development of our children. We feel that she has made their adjustment to school, sports teams and dance class easier. We saw firsthand the increase in confidence levels and better social skills in our children in their interaction with her.

The children in her classes are of diverse ages and social skills, yet her classes flow seamlessly. There were children who obviously had ADHD, autism, language disorders, and behavioral issues in the class, all of whom were included in all activities without issue due to her tremendous experience and clear knowledge/love of children. As a pediatrician and as a child psychiatrist, we take care of children who have these diagnoses, and we know that Ms Czeponis did an excellent job interacting with and teaching these children.

She is a well respected person in our community. She is a very qualified and a dynamic teacher. She is the first non-family member with whom we entrusted our children. We both highly recommend Ms Czeponis to your program.
