To whom it may concern,

Kelly Geigner is a compassionate and caring individual especially when it comes to her students. She thrives to make certain they reach their highest learning potential, explore and understand their lessons, and have fun in the process. Because of this, I am pleased to recommend Kelly for the position of Facilitator of Media-Library Services at Pekin Public School District 108.

I have witnessed first-hand her technological expertise and interaction with students and staff as they are introduced to new software applications. Her excitement and enthusiasm to expose them to the latest and greatest applications is top-notch. Kelly's innovative lesson plans are well constructed and tailored to her students' needs and capabilities. Kelly is always eager and willing to try new approaches for her students' learning.

One of Kelly's strengths is her willingness to locate and research new opportunities for her students and fellow teachers. Kelly is happy to share her knowledge with her fellow colleagues, works well with others, and is a team player.

Thank you for your time and please feel free to contact me if you have any further questions regarding Kelly Geigner's employment. You may reach me at jan.darnell@pekin.net or call (309) 477-4700 ext. 2106.

Sincerely,

Jan Darnell
