To whom it may concern:

Kelly Geigner has asked me to serve as a reference and I am happy to do so. Mrs. Geigner is currently in her first year of employment in Pekin 108, serving as a literacy leader for both Wilson and Washington Intermediate Schools.

Kelly has served as part of our School Improvement and Planning Team, and has led out several activities with our staff related to literacy and technology during professional development days. Kelly has also supported several of our classroom teachers by providing interventions for struggling readers and writers, as well as helping design enrichment lessons for our students functioning above grade level.

Serving two schools has its unique challenges, yet Kelly has done a great job balancing the needs of both schools and supporting numerous staff members. Perhaps Kelly's greatest strength is her knowledge of the resources available for classroom teachers and helping them access such resources to put them to use in their classrooms.

Kelly would be a welcome addition to any school team, and her knowledge of literacy, technology, and ability to facilitate discussions among professionals make her an outstanding educator.

Should you need more information as you consider Kelly Geigner for a position within your organization, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Joe Franklin".

Joe Franklin

Principal
