Sara Daley, CRNP

Deborah Robbins, CRNP

To Whom It May Concern:

Jamie White has been working with us at Main Line Ob/Gyn for five years. Throughout her entire college career, she has worked every summer and during every school break. She began as a file clerk and has grown into a knowledgeable, efficient, dependable and willing part of our organization.

Jamie is extremely pleasant and professional. When given any kind of task, I have total confidence that it will be completed with speed and accuracy. She has learned all aspects of the workings of our front office. This includes utilizing effective communication skills with patients, completing medical precertification and referrals and mastery of the complex computer system.

Jamie would be an asset to any organization. Our loss at Main Line Ob/Gyn will be a gain for any company. I highly recommend Jamie White.

Sincerely,

Eileen F. Carpenter, CRNP
Manager, Main Line Ob/Gyn
