Warrant Officer Rodel
Canadian Forces Military Police
15 Wing PO Box 5000 Moose Jaw, SK S6H 7Z8

Dear Warrant Officer Rodel

RE: Military Police Practicum Position

Please accept this letter and enclosed resume as application to conduct a practicum placement with the Military Police, which is advertised at the Lethbridge College. The base I am requesting to do my practicum at is 15 Wing Air Base, Moose Jaw. My goal after college is to become a regular force member with the Canadian Forces Military Police.

My courses through Lethbridge College have re-enforced my decision to pursue a career in law enforcement. I am honest, have high integrity, and a commitment to my studies as well as pursuing my future as a Military Police officer. The experiences of working along with the Swift Current Fire Department and Swift Current Emergency Medical Services, as well as being a hockey official for seven years have proven how effective teamwork is, and how I can apply it to policing. With these ideals and beliefs, I believe I can make a positive impact on the Military Police, as well prove to be a valuable asset in the future as regular force member of the Military Police serving the Military Community and Canada.

My skills include creating effective presentations to audiences of all ages. This includes making a fun, effective Christmas fire safety presentation as a requirement for my practicum with the Swift Current Fire Department and presenting a presentation on the Military Police at the Lethbridge College for my "Effective Presentations" class. I am dedicated to helping others and am willing to learn new skills. An example of this is learning equipment locations on ambulances while doing a practicum with the Swift Current Emergency Medical Services. In all of these cases, each of my deadlines were met.

As a practicum student, I will join the Military Police in providing security and safety to the community and member of the Canadian force in a positive way by contributing to the daily assignments and concerns of the military. I would love to demonstrate my skills and abilities as a practicum student at 15 Wing Moose Jaw. I can be contacted by telephone at (306) 741.6898

Respectively yours,

Stephen Skelton
