Dear Paladin Security,

I am applying for the patient watch position in Lethbridge AB as posted on the Paladin Security website; I have also included with this cover letter a resume. Currently, I am in the Criminal Justice Program at the Lethbridge College and am looking for some experience in the field. I will be a great candidate for this position as I have gained lots of knowledge about the field since entering the Criminal Justice Program, and I am looking to apply it in the field.

While working at my other job placements, I had been required to work with limited supervision for long periods of time to complete a task. Also while working at the theatre, I had to be very punctual to start the shows on time for the night to go well; working this job had me apply my punctuality skills. Also while working with Piikani Resource Development Ltd. I had to apply many of my organizational skills and intermediate computer skills. I am a very quick learner when shown how something has to be done; and when confronted with a problem at other job placements, I was willing to try many problem solving techniques to solve the problem.

I will be an excellent candidate for this position as I will apply all of the skills I have acquired to be the best security personal I can be. If hired I will do the best I can to uphold the mission statement which paladin security stands by and I will do my best to work beyond the regular call of duty and apply all of the skills I have gained in the past.

I would like this opportunity to gain even more experience in the criminal justice field to further me on my career path. My resume, work experience and references are enclosed. Feel free to contact me on my cell: 403.894.1235 or e-mail me at gsmith68@live.ca. I am available anytime during the day and I look forward to hearing from you.

Yours truly,

Godfrey Smith
