

Science Museum of Oklahoma News Release

FOR IMMEDIATE RELEASE

August 3, 2010

BABY, IT'S COLD OUTSIDE SO COME TO SCIENCE MUSEUM OKLAHOMA!

OKLAHOMA CITY- Tired of being stuck inside because of the chilly weather? Brave the roads for a trip to Science Museum Oklahoma where the weather is warm and the exhibits are cool!

"We have exhibits on nearly every subject, from learning about how calories affect your body to what animal hasn't changed since dinosaur times," Chris Wilkerson, Science Program Coordinator said. "To find out the answers, come by Science Museum Oklahoma and check out all of our interactive exhibits for yourself!"

Science Museum Oklahoma's general admission tickets include access to all of the exhibits and artifacts, as well as two complimentary shows, the Planetarium and Science Live. With the weather being cold, come see the stars without freezing you socks off in the Planetarium, or warm up to chemical change-induced explosions at Science Live. Or, you can pay a little extra to see one of our I-Max movies and feel as if you are a part of the movie with our larger-than-life screen.

"One of the best parts about the museum is being able to come inside year-round to enjoy our hands-on exhibits and authentic artifacts," Wilkerson said. "You never have to worry about the weather being bad in here!"

With over 300 hands-on exhibits for ages zero to infinity, Science Museum Oklahoma has something for everyone in the family. Where else can you lie on a bed of nails, test out your origami skills and fly a space simulator all under the same roof? Come to Science Museum Oklahoma today to reveal the wonder and relevance of science while staying warm and having fun with your family.

For more information about this and other exhibits at Science Museum Oklahoma, guests can call 405-602-6664, or visit www.sciencemuseumok.org for more information.

About Science Museum Oklahoma

Science Museum Oklahoma reveals the wonder and relevance of science in our everyday lives. Get up to your elbows in science with acres of hands-on experiences, thousands of space, aviation and cultural artifacts and new exhibits always on the horizon. Blast off beyond the Milky Way in the Planetarium Theater and feel the heat from live explosions in Science Live. And you'll love traveling to new worlds while watching IMAX movies in the dome theater. Let your inner-child run wild!
