

Science Museum of Oklahoma News Release

FOR IMMEDIATE RELEASE

August 3, 2010

IF THE FORECAST IS RAINY DAYS, THINK SCIENCE MUSEUM OKLAHOMA!

OKLAHOMA CITY- Grab your rain boots and umbrellas, its time to make a trip to Science Museum Oklahoma! While the weather is wet, come inside to dry off and enjoy over 300 interactive exhibits and thousands of authentic artifacts.

"I love that our customers are able to come in rain, snow, or shine," Melody Muniz, Visitor Relations Specialist, said. "We're open every day of the year except for three! We like to think that those who have year-long memberships are able to get their money's worth, and those that want to stop by just for the day don't have to worry about whether or not we'll be open that day-we almost always are!"

In Science Museum Oklahoma, every day is a day to learn something new. You can learn about how gravity works, why the weather is doing what it does, how sound travels and much more! Each of our exhibits is interactive and allows for the most fun while learning a little bit a long the way.

"We're the best," Heather Abshier, Visitor Relations Lead, said. "No matter the weather outside, Science Museum Oklahoma always has a perfect forecast."

For more information about this and other exhibits at Science Museum Oklahoma, guests can call 405-602-6664, or visit www.sciencemuseumok.org for more information.

About Science Museum Oklahoma

Science Museum Oklahoma reveals the wonder and relevance of science in our everyday lives. Get up to your elbows in science with acres of hands-on experiences, thousands of space, aviation and cultural artifacts and new exhibits always on the horizon. Blast off beyond the Milky Way in the Planetarium Theater and feel the heat from live explosions in Science Live. And you'll love traveling to new worlds while watching IMAX movies in the dome theater. Let your inner-child run wild!
