Qualifications/Skills

- National Honor Society
- Young Writers Creativity Award
- Photoshop
- Dreamweaver
- Flash
- Excel
- Korean
- French

Relevant Experience

Psychology Research Project

- Created an inventory that measures wellness level of the student body in a boarding school in Kenya; collaborated with the counseling department of the school in distributing and gathering the data; analyzed the data in order to help the department better tailor the prevention and help to the student.

Information Technology Proficiency

- Exposed to many different kinds of IT programs through internship at Information Technology Associates Program. Projects completed using Photoshop, Flash, Dreamweaver, etc. (projects can be viewed at <http://www.visualcv.com/leekunkyong>)

Experience

Information Technology Associates Program
Greencastle, IN

Current Intern

ITAP is a highly selective on-campus internship program at DePauw providing a singular experience that blends a traditional liberal arts education with cutting-edge experiential learning in an academic environment. In addition to technological skills, ITAP internships enable the building of skills that are part of a liberal arts education, such as critical thinking, analytical reasoning, problem solving, and communication skills among others.

Education

DePauw University

Greencastle, IN

B.A Psychology and Writing

Grad Year – 2015

I have not yet decided on which occupation I am pursuing, but I am very interested in the areas of media, photography, journalism, and psychology. Also, I am open to any other enriching experience.
