

Set In Stone

*I*t's all about making our lives a little less dreary, and a whole load more convenient these days. With the advent of permanent and semi-permanent make-up (aka cosmetic tattoos), being a showstopper from day to day has become a walk in the park.

Lip Tattoo

Imagine never having to deal with out-of-line lipstick stains and the constant touching up of lippies. This beauty fad where your pout receives a permanent shade of rouge has taken Hollywood by storm. Best of all, it's kiss-proof!

Not ready to commit your lips? Check out the temporary lip tattoos that are on the lips of starlets like Lady Gaga, Jessie J, and the Kardashian sisters!

Eyeliner Tattoo

The everyday struggle to perfect that black line—be gone! Eyeliner tattoos can create subtle, natural lines or bold, dramatic ones to make your peepers go pop! The procedure involves little implantations of microscopic pigments placed on the lash line. Ophthalmologists recommend this for those who are allergic to conventional eye makeup or contact lens wearers.

Eyebrow Tattoo

The perfect arch can do wonders to frame your face and enhance your natural features. Save yourself the embarrassment of the "lost eyebrow" look when your brow pencil wears off over the day. Eyebrow tattoos give a fuller brow for that natural, 60's look we all covet. When getting yours done, your stylist will pick out the best eyebrow shade to best suit your skin tone.

When it comes to your brows:

DO

- Take your face shape into consideration.
- Determine the thickness of your brows by observing the placement of your brow bone.
- When in doubt, under-tweeze .
- If you have a small face, avoid filling in too much of your brows.
- Match the colour of your brow with your hair.
- 'In' Celeb Brows: Natural, thicker brows like Anne Hathaway, Keira Knightley, Camilla Belle.

DON'T

- X Tweeze above the brow line.
- X Sport pencil-thin eyebrows.
- X Shave off your eyebrows and replace it with bizarre pink tick.
- X 'Out' Celeb Brows: Unnatural high arched brows like Pamela Anderson, Danielle Staub from The Real Housewives of New Jersey.

Point D' Beaute

Eyebrow Engraving is the beauty salon's signature service made popular through word-of-mouth. Combining their special technique from Japan known as Art Make and 20 years of experience, your brows are "engraved" on with extremely soft needles (don't worry, its virtually painless!) for an au-natural look that beats drawing them on. Brow colour does not wear off because of their organic colouring, and there are absolutely no side effects nor scars. A typical procedure takes only 45 minutes and can last up to 3 years. In fact, results have proven so timesaving that many local actresses and cabin crew have been flocking here to perfect their arches.
