Entry Level Architect Designer/ Interior Designer / Craftsman

Teamwork | Leadership | Skilled Communication | Loyalty | Creative | Fast Learner
Hard Working | Positive | Innovative | Organized | Motivated | Committed to Excellence

As a soon-to-be graduate in Interior Architecture, I bring the passion and energy needed to take design to the next level. While finishing my Master's degree, I maintained a part time job and other leadership activities. I believe my success at your business will be complimented by my leadership skills, hard work, and the desire to learn all aspects of the design process. In the past year, I studied at Kansas City Design Center (KCDC) working with city officials, stakeholders, general public, and design professionals to produce an urban vision plan for the Independence Avenue area and surrounding neighborhoods. Along with my diverse skill set, I thrive in high stress and constantly changing environments. If I do not know an answer to a problem I will hunt down a solution.

Let's have a conversation about how my abilities can positively impact your team.

- **Featured Furniture Designer**
- **Multidisciplinary Learning**
- **Strong Leadership Skills**

Technical Skills - Working knowledge of Revit Architecture 2012, AutoCAD Architecture 2012, 3D Studio Max 2012 with V-Ray rendering plug-in, Photoshop CS4, Illustrator CS4, InDesign CS4, Rhinoceros 4.0 3-D modeling, Sketch-up

Masters of Interior Architecture and Product Design 13' | Business Minor 13'

Kansas State University, Manhattan, Kansas

Kansas City Design Center 12'-13'

Kansas City, Missouri

Selected Skill Set

Featured Furniture - I am most proud of a lounge chair that I designed and built for a furniture studio. My Free Line lounge chair is currently located in the Beach Museum in Manhattan, Kansas. This honor was presented to only two students in the college. An article about the piece will also be **published** in the Interior Design Educators Council's newsletter.

Multidisciplinary Learning - Architecture at Kansas State is divided into multiple design disciplines. Architecture, Site Planning, Urban, Product, and Furniture Design. Working hard and understanding every portion of a project is very important to my design philosophy. I believe that by combining my multidisciplinary design skills with a **business minor** gives me a greater financial understanding and better knowledge of business principles as I enter the work force.

Strong Leadership Skills - Any business needs strong leaders who not only manage others, but also who lead by example through exemplary work ethic and communication skills. I have managed 10-12 employees at a restaurant, been a captain of a lacrosse team of 20, and served as a home improvement coordinator for a fraternity of 90. I also work well in groups by holding others accountable, and working together to accomplish projects by deadlines. I am dedicated to seeing a project from start to finish.

Career Summary

Intern, Bennett Construction, Blue Springs, MO, 2012
