Editorial Manager
AANA Journal
June 8, 2013

Dear Editor:

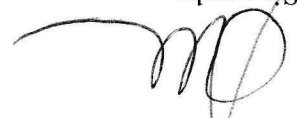

I am pleased to submit an original research article entitled "Do You See Anything That You Recognize: Teaching Novice Registered Nurse Anesthetists to Intubate Using the Video Laryngoscope," by Kay Sackett EdD, RN, Leonard Nyland, DNAP, CRNA and Stephanie McHenry, CRNA, MSN for publication consideration in the AANA Journal.

Previous research has shown the video laryngoscope aids in the instruction of novice intubators. In this manuscript, we show the video laryngoscope, when implemented in the SRNA curriculum, improves learning, increases competence, and improves patient safety.

Our manuscript created a paradigm for future studies aligned with technological adjuncts to aid in the acumen of SRNA's.

The manuscript has not been published and is not under consideration for publication elsewhere. We have no conflicts of interest to disclose.

Thank you for your consideration,

Sincerely,

Stephanie McHenry, CRNA, MSN, ARNP
