Tapping heart changes color back and forth. Green heart indicates that an item is "Most Loved." Limit of green hearts is 5. As soon as user selects 5 items, all gray heart disappear; user must click a green heart to de-select that item and make all gray hearts reappear, so user is able to select another item as a Most Loved item. IF a Most Loved items goes NLA or becomes fulfilled, the heart disappears, opening a slot for another item (NLA/Fulfilled items are automatically de-selected).
