Thank you much! It is awesome that you took the time to do this. (And, I love Dillon; I'm glad I am doing him some good!)

Soli Deo Gloria!

Good Afternoon,

I am writing this letter in recognition of one of your teachers at Gautier High. I feel it is only fair to inform you of the great job she has been doing.

My son is Dillon Moore, he is in the 11th grade at Gautier High. Dillon has taken the ACT test three times already. He made a 24 in science on the ACT in June of 2012; then, in December of 2012, he made a 21 in science. Dillon loves science, and I was hoping for a better score. In April 2013, four months after he took the December ACT, his score in Science went from the 21 to a 30. His total ACT score went from a 25 to a 28. I told my son how proud we were of him. He said that one of his teachers was part of the reason for his raised ACT score in Science.

I just wanted to write this note in appreciation to that teacher, his Chemistry teacher, Doctor Melynda Ross. I know that schools are all about getting your numbers up. I am also hoping for the same thing.

I have never met or talked to Dr. Ross, but I listen to my son and watch his scores. His numbers said it all.

Dillon's overall score on the ACT is a 28 right now, and I'm still hoping for a higher grade. I did read a newsletter that the school system sent out a few months back saying they are looking and hiring the best teachers in the state. Looks like you have been doing a Great Job already. Again I would like to thank Dr. Ross. I feel that letting the teachers know that we, the parents, see the great job they are doing is important. I am sure this will encourage them more next year.

Terri Moore
